This tiny magnet – barely bigger than the head of a pin – is the key to a hearing breakthrough that could change your life, too! If you’re not hearing all you want to, even with a hearing aid, you need to find out about a wonderful new product that has been praised by the Today Show, A.M. America, and many others. It’s called The Direct System, and it’s now available from doctors in the Chicago area.

What do those who’ve tried it say about The Direct System? “It’s like a whole new way of hearing!” “I hear so much better with The Direct System!” “I’m hearing like a kid again!” This may be a way for you to hear clear, natural sound again, with no distortion or discomfort.

Ask your doctor or audiologist about The Direct System, or call Doctor Nancy Young at Children’s Memorial for more information, at 773-880-3496.
