

Tort “Reform”

A license to kill, maim and steal.

In a perfect world, hospitals wouldn't kill 100,000 patients a year, corporations wouldn't swindle the public out of billions of dollars, manufacturers wouldn't kill thousands of customers just to make more money, doctors wouldn't ever destroy a patient's life because they're incompetent, careless, or on drugs, and there wouldn't be a need for any trial lawyers.

This isn't a perfect world, and it could be a lot worse. America's doctors, hospitals, and corporations are afraid of only one thing: *you*. Because you have the ability to take them to court in a jury system that's the envy of the world and make them pay for their mistakes, their gluttony, their crimes, their don't-give-a-damn attitude. And to do that, you hire a trial lawyer.

No wonder they're trying to get rid of us. *No wonder* they're trying to gut the jury system. *No wonder* they're trying to limit the amount they have to pay when they kill or maim you, or your child, or the little old lady who lives next door.

We don't think that's the right approach. We'd rather *limit the number of people they kill, maim, and swindle every year* than limit the amount they have to pay for doing it.

If you agree, call, write, or visit your Senator. Ask how tort “reform” is going to help you, and people like you. And don't stop asking until you get an answer.

Tort “reform”

It's all about money.

The doctors, insurance companies, corporations, and our legislators are out to get the “greedy” trial lawyers, because “the trial lawyers don't care about anything but money.” So how are they going to get rid of us? By reducing the amount of money the doctors, insurance companies, and corporations have to pay when they when they kill, maim, or swindle someone. So who are the “greedy” ones?

If they're so desperate to make more money, why don't they just stop killing, maiming, and swindling people? That way they could get rid of the trial lawyers, too. But until they do, people like you, and your children, and the little old lady who lives next door need someone to see that your rights are upheld. Someone who will fight toe-to-toe with the highly paid corporate attorneys. To make them pay, and pay until it hurts, not just

because you deserve it, but also in the hope that the fear of similar payouts in the future will make them stop and think before they kill, maim, or swindle someone else.

If you agree, call, write, or visit your Senator. Ask who the “greedy” ones really are. Ask how tort “reform” is going to help you, and people like you. And don’t stop asking until you get an answer.
