A handsome lift recliner from La-Z-Boy, in a velvety soft dark red merlot chenille fabric. The tall back is sectioned and bustled, for excellent lower back and lumbar support. The arms are large, padded and comfortable. The channeled seat melds into a completely upholstered and padded chaise footrest at a touch of the included remote. When not in use, the simple to use remote slips into a convenient side pocket. Battery support is included, with enough power to lift the chair even if the electricity goes out. A true miracle chair. Very few products can transform a life the way a lift chair like this can. When someone has great difficulty sitting down or getting up out of a chair -- or when it's impossible for them -- they tend to let life revolve around them, rather than go through the pain and problems of standing up -- or finding someone who will give them a hand up. The lift chair solves all those problems, giving that person a new lease on life. Press the button on the remote, and this chair rises to meet you, so all you need to do is lean back into it to sit down. Keep pressing it, and the chair will recline and the footrest will rise automatically. When you're ready to get up, press another button, and the chair will slowly rise until you can just walk out of it -- with no "getting up" to it at all. This handsome lift chair offers style to go with that miraculous mobility. An extraordinary value in a priceless lifechanger.
