

SuperFood Solutions

The Cure

For the 12 most common health problems

"Great Products, Great Science, Great Taste"

The SuperFood Solutions Story

In December, 2004, a focused team of scientists, physicians, nutritionists, and pharmacists joined forces to co-found a new company, BioPharma Scientific®, to create a quantum leap in the science of nutrition. The result was the SuperFood Solution, a family of products that are the world's most complete, balanced and potent nutritional supplements, containing breakthrough ingredients derived from a wide variety of fruits, plants and vegetables. These supplements slow the aging process, repair the body in many ways, and help its defense against a wide variety of ills, including fatigue, depression, obesity, diabetes, heart disease, high blood pressure, stroke, cancer, vision loss, arthritis, osteoporosis and senile dementia.

Better taste, better science, better results.

- "Easiest pregnancy ever!"
- "The best post-workout supplement I have ever taken!"
- "My cholesterol dropped 132 points!"
- "The change in my blood chemistry was *remarkable!*"
- "I love the taste and how quick and easy it is to mix."
- "It makes a huge difference in the way I am able to perform."
- "My body's not as sore after a hard karate workout."
- "Even my allergies seem to have diminished."
- "Your products are awesome!"
- "Lost 50 pounds and feel better than I did when I was 20!"
- "Our friend with leukemia has gone 100 days without transfusions."

Want more energy? Want to live longer? Want to be free from disease and discomfort? SuperFood Solutions is the best way to make it happen, with breakthrough products that are simple to use and taste terrific.

A SAD Problem

The Standard American Diet (S.A.D.) is

- low in antioxidants from fruits and vegetables
- low in healthy omega-3 fats from seeds, nuts and fish
- Too high in bad saturated/hydrogenated and fried fats
- Too low in fiber and too high in sugar carbohydrates

This S.A.D. diet promotes fatigue, depression, pain, obesity, diabetes, heart disease, high blood pressure, stroke, cancer, vision loss, arthritis, osteoporosis and senile dementia.

The SuperFood Solution

People in all walks of life, of all ages, have made this breakthrough assemblage of nutritional products a vital part of their daily routines. From athletes like Tyler Brown, a member of the USA Olympics BMX Long Team to medical practitioners like Cindy Boyd, D.C., to people just like you, SuperFood supplements provide:

- more energy
- effortless weight control
- increased efficiency of the immune system
- joint wellness
- brain and eye wellness
- heart wellness
- smoother skin
- greater endurance
- greater regularity
- a host of antioxidants
- a perfect complement to detoxification
- a perfect regimen for those going through menopause
